Shorthorn - Polled Shorthorn

SHOW & SALE

MARCH 31, 1973

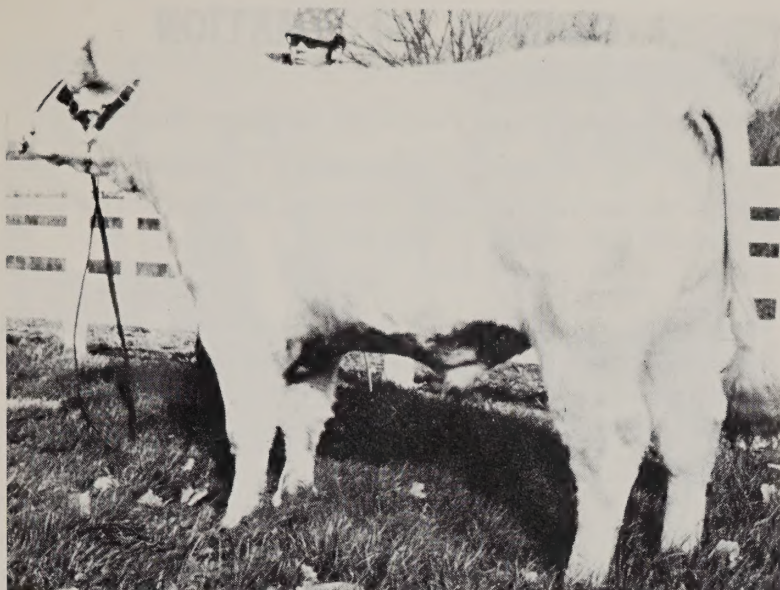

**THIS
SALE
DEDICATED
TO
BILL
CRUICKSHANK**

There are many fine folks in the Shorthorn and Polled Shorthorn business. None, however, has a greater love for the breed, nor is more qualified to the title of FRIEND than Bill Cruickshank, Ringwood, Ill.

His seemingly gruff manner is a camouflage for a great, kindly heart and an intense respect for all who make a worthwhile contribution to the registered cattle business in general, and to the Shorthorn business in particular.

A native of Scotland, he came to this country in 1910. He was associated with Shorthorn herds in Minnesota, Nebraska and Illinois. For 20 years he managed the famed Ringwell Herd in Illinois for which he exhibited the International reserve grand champion female in 1952, the grand and supreme champion female in 1953, and the grand and supreme champion bull in 1954.

While Bill has lived in Illinois, he has been an important part of the Wisconsin Shorthorn fraternity. A friend to many, a valued advisor to others, he has made a lasting contribution to a better Shorthorn industry. Because of all he has done and for all he has meant to so many, we dedicate this sale to Bill Cruickshank.

Defender's Challenge x pictured on his second birthday after heavy service. A son and daughter sell in this sale. Two sons are averaging over 4 pounds of gain per day in the Wisconsin Bull Test.

WHY BUY SHORTHORNS?

- ★ Shorthorn bulls are active, sure breeders.
- ★ They put more growth into their calf crops.
- ★ Shorthorns are historically known for their faster gaining and finishing ability. The demand for Shorthorn and Shorthorn crossbred feeders far exceeds existing supplies. Consequently, they sell for a premium.
- ★ Shorthorn bulls put more milking ability into their daughters . . . this means heavier weaning weights.
- ★ Shorthorn docility is world famous, making them ideal projects for youngsters.
- ★ Shorthorns eliminate the cancer eye, sunburned and snowburned udder problems.
- ★ Shorthorns are known as "THE GREAT IMPROVERS." Shorthorn crosses have been proven in test after test to be superior to other crossbreds in milking ability, rate of gain and feed efficiency.
- ★ Ask yourself why so many commercial herds are now crossbreeding with Shorthorns? IT'S BECAUSE THEY ARE BEST IN EVERY WEIGH.

STANDARD GUARANTEE

OF AMERICAN SHORTHORN BREEDING ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. Bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within six months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller. Cows with calves at foot even though bred are not given any guarantee.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction on all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any other animal later substituted.
5. In the event an animal is returned by the buyer to the seller as a non-breeder, the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such certificate is required by the seller.
6. All animals are sold to comply with the laws regulating tuberculosis and Bang's disease of the state or country into which they may be shipped.
7. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
